

# Multiplying 3-Digits by 2-Digits

$396 \times 52 =$

Step 1: Multiply the ones column (PITCHER)

Step 2: Mark out your "Extras" and your "PITCHER"

Step 3: Put a "0" in the 2nd row!  
ALWAYS! ALWAYS! ALWAYS!

Step 4: Multiply by the tens column (CATCHER)

Step 5: Add and put comma in

Example #1 -  $852 \times 35 =$

$$\begin{array}{r} \begin{array}{r} +1 \\ \cancel{8} \\ 852 \end{array} \\ \times \cancel{35} \\ \hline + 4260 \\ 25560 \\ \hline 29820 \end{array}$$

Example #2 -  $389 \times 12 =$

$$\begin{array}{r} \begin{array}{r} \cancel{11} \\ 389 \end{array} \\ \times \cancel{12} \\ \hline + 778 \\ 3890 \\ \hline 4668 \end{array}$$
